

How to make your own Doughnut Dreamcatchers

(you need: ring doughnuts, boho feathers printed on card / your own feathers drawn on card / real feathers, thin ribbon or string, small plastic beads, scissors, big eyed needle, colouring pens / felt tips)

1. Colour in (optional) and roughly cut out the feather shapes in pairs (image one) dont worry about being too neat!
2. glue the back of the twin feather shapes.
3. fold the shapes down the middle and press firmly together (image 3)
4. trim the excess white card from your folded feather shapes.
5. measure two 40cm lengths of ribbon and tie a small bead 15cm up each of them. Also measure a 20cm piece of ribbon. Tie your feather shapes to the ends of all three ribbons (image 5)
6. Thread one of the long ribbon pieces right through the side of the ring doughnut using a big eyed needle. pull through until the bead touches the doughnut (image 6)
7. repeat step 6 with the other long piece of ribbon, but this time use another threading angle (image 7)
8. Now thread the short piece of ribbon right through the doughnut centrally between the two previous ribbons and secure at the top with a bead (image 8)
9. Tie together the ribbon ends at the top and hang your dreamcatcher somewhere to be admired by everyone! Good job! now have a great day ahead x

Use as party decorations, party favours or just for fun!
Not suitable for very young children.
